IABSE Workshop Helsinki 2017

'Ignorance, Uncertainty and Human Errors in Structural Engineering'

Submission of abstracts until November 30, 2016

He left recently the Presidency of the European Council of Civil Engineers (ECCE) and he is currently partner of GATEWIT - Construction Information Technologies and of SACIV, Ld. - Civil Engineering Services. His fields of

expertise are bridge design, maintenance and rehabilitation, and new materials, having been consultant for major Public Works such as the S. João Bridge, Vasco da Gama Bridge in Portugal and the Macau-Taipa Bridge, China.

His main objectives as President are to develop the leading path of IABSE, to reach more people, to increase the network of its members and, essentially, to bring to the association young engineers. The plan to increase the network considers, among others, to make the National Groups of IABSE more dynamic, to increase their
