IABSE Symposium Vancouver 2017

September 19-23, 2017

Registration opening soon!

The 39th IABSE Symposium provides a platform to the world's structural engineers to share their experiences with contemporary structures and their vision for the future. The conference theme 'Engineering the Future' is highly relevant today when the solutions have to be engineered using innovative technologies and past experience in a way that is economical, robust and enhances the sustainability of the built environment.

Information about schedule, keynote speakers, programme, accommodation and registration is now available on www.iabse.org/Vancouver2017

Kuala Lumpur Conference 2018

Preliminary Invitation and Call for Papers

The Conference 'Engineering the Developing World' in Kuala Lumpur aims to bring together professional engineers, researchers and public agencies locally from Southeast Asia as well as from around the world to exchange ideas on engineering issues inherent in developing nations achieving developed status.

Authors wishing to present a paper at the conference are invited to submit their abstract online until **April 30, 2017**.
