Kuala Lumpur Spring Conference 2018

Deadline for Submission of Abstracts: **April 30, 2017**

The IABSE Conference *Engineering the Developing World* in Kuala Lumpur aims to bring together professional engineers, researchers and public agencies, locally, Southeast Asia and from around the world to exchange ideas on engineering issues inherent in developing nations in achieving developed status.

Authors wishing to present a paper at the conference are invited to submit their abstract to the conference themes and topics through the online manuscript platform available [here](#)..

SED 5 - 3rd reviewed and extended edition

'Introduction to Safety and Reliability of Structures', by Jörg Schneider and Ton Vrouwenvelder

www.iabse.org/Onlineshop

Early Bird Registration Fees until **May 31, 2017**

Join us in Vancouver from September 19-23, 2017, to discuss *Engineering the Future*. The Scientific Committee has accepted over 450 papers for oral presentations, facilitated poster sessions and special sessions. The Keynote Speakers will be: Gian Michele Calvi, Italy; Peter Irwin, Canada; Yaojun Ge, China and Ronald Eguchi, USA.

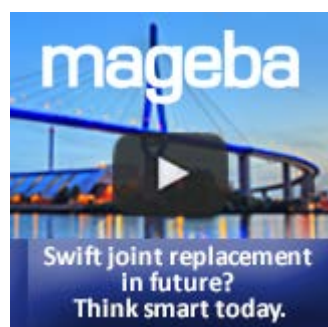

Pre-Symposium Workshops are planned under following topics: (1) Seismic Engineering; (2) Timber Engineering; (3) Cold Regions Engineering; (4) Forensic Engineering; (5) Bridge Dynamics (for Young Engineers)

Technical Tours highlighting structures in the region will be organised after the Symposium and will be guided by engineers. Both delegates and accompanying persons are invited to register for these tours which include two boat cruises and a multi-day trip to explore Whistler and the Sea-to-Sky Corridor.

IABSE Conference Bath 2017 - Report

A refreshing and new way of including delegates!

The IABSE Conference *Creativity and Collaboration – Instilling Imagination and Innovation in Structural Design* was successfully held on April 19-20, 2017 in Bath, UK. The University of Bath set a perfect scene as the conference venue. With a tradition of educating students with emphasis on both architecture and structural engineering, the site was perfectly in the spirit of the conference.

Moving away from the traditional conferences, that are mainly speaker-listener one-way presentations, this conference continued the Geneva Conference format that encouraged delegate's active discussions and exchange of viewpoints at its workshops and seminars. [Read more..](#)

André D. Orcesi, France

Alan O'Connor, Ireland

New IABSE Working Group

Without the structural engineer's work, most of the built environment and infrastructure would not be possible. Effects of Climate Change on Infrastructures is the timely topic of the new **IABSE Working Group 13** that was recently created. André D. Orcesi and Alan O'Connor, Chair and Vice Chair of this WG, respectively, share their thoughts about the necessity and the mission of this Group. [More](#)
